Education

Dalhousie University | Bachelor of Computer Science, Halifax, NS — Sep 2022 – Sep 2026

Technical Skills

Languages: Java, JavaScript, TypeScript, Python, C#, SQL, HTML5, CSS3
Web & Mobile: React, Node.js, Express, REST APIs, Android SDK, Android Studio, HTTP, DOM, SSL/TLS
Databases & Cloud: PostgreSQL, MySQL, MongoDB, Prisma, Firebase Authentication, Realtime Database, Docker
Testing & Tools: Jest, Supertest, JUnit, Mockito, Espresso, Git, GitHub, Code Review, Agile
Computer Science: Data Structures, Algorithms, OOP, Database Design, SQL Querying, Debugging
Certifications: Azure AZ-900, Web Development, Python

Experience

Solutions Analyst Co-op | Irving Oil | Saint John, NB — Jan 2026 – Apr 2026

- Mapped Azure migration dependencies and network data flows; documented requirements with cloud teams.
- Translated Paperless Pilot user feedback into workflow changes with technical and business stakeholders.
- Researched Adobe-to-Tungsten migration tools and integration dependencies; shared findings with IT teams.
- Analysed GE Meridium sensor-data ingestion and application dependencies for operational integration planning.

Network Analyst Co-op | Irving Oil | Saint John, NB — Sep 2025 – Jan 2026

- Developed **3 new SolarWinds dashboards** using SWQL in collaboration with Cloud, Network, and Service Desk teams for service monitoring.
- Updated 37 network maps and audited **319 Cisco ISE nodes** to enhance application reliability and planning.
- Diagnosed 29 network systems using CDP/LLDP and monitoring data to ensure application performance.

Backend Developer | Empovation | Nigeria (Remote) — Jun 2025 – Dec 2025

- Engineered **Node.js/Express** REST APIs for member data, scheduling, and organisational resources.
- Applied **SQL schema design** and querying to relational data; connected React interfaces to server-side operations.
- Participated in **code reviews**, Git collaboration, Agile delivery, and technical discussions with remote developers.

IT Technical Assistant Co-op | Dalhousie University | Halifax, NS — Jan 2025 – Apr 2025

- Automated IT support workflows with SQL and Power Automate; documented repeatable processes.
- Diagnosed application, account, and network issues; communicated reproducible fixes to students and faculty.

Data Analyst Intern | Dresma | Delhi, India — Dec 2021 – Sep 2022

- Analysed product datasets, documented ETL workflows, and built Excel/Power BI reports for stakeholder decisions.

Projects

Stock Portfolio Tracker | *TypeScript, React, Node.js, PostgreSQL, Docker* — 2026

- Built an end-to-end **React/TypeScript** web app with live HTTP price feeds, transaction-based holdings, and dashboards for cost basis, dividends, and profit/loss.
- Modelled PostgreSQL/Prisma schemas for users, portfolios, and trades; secured REST APIs with JWT.
- Wrote 2 **Jest/Supertest** API test suites; added request validation and Docker Compose.
- Stored transactions as integer cents and cached market prices to prevent rounding errors and redundant API calls.

Quick Cash – Android Mobile App | *Java, Android SDK, Firebase, Gradle* — 2025

- Co-developed a **Java/Android SDK** app for short-term jobs with employer postings, applicant search, and filters.
- Integrated Firebase Authentication and Realtime Database for user accounts and job listings.
- Built location-aware job discovery with Google Maps and PayPal sandbox payment validation.
- Tested login, job creation, search, and payments with JUnit, Mockito, and Espresso UI tests.
